Uruguay: Newly installed President Jorge Pacheco Areco has moved suddenly and with unexpected force against elements of the extreme left. }

By decree, six leftist groups have been dissolved, two radical newspapers closed and nine prominent extremist leaders held for "criminal justice." Since the conference of the Latin American Solidarity Organization ended in Havana in early August, the six groups have been actively publicizing a revolutionary ideology. Some isolated acts of violence had occurred

The pro-Soviet Uruguayan Communist Party is not affected by the decree, and it will be strengthened in its view that armed revolution at this time in Uruguay is foolhardy.

USSR: [Another new class of submarine has been identified in the USSR.]

[The submarine, [REDACTED]

25X1

[REDACTED] is just over 200 feet long and has a beam of about 30 feet. This small submarine could be an experimental prototype, but it is more likely the lead unit of a new torpedo attack class. The submarine is considerably smaller than US or Soviet nuclear-powered submarines now in service; the type of propulsion it will use is not known.]

[The Soviets also are building two other new classes-- a nuclear-powered ballistic missile submarine and a nuclear-powered torpedo attack submarine. The first units of all three probably were launched within the past 18 months.]

NOTES

25X1

West Germany - Yugoslavia: Bonn has decided to open negotiations with Yugoslavia on the resumption of diplomatic relations. Talks are expected to begin early next year and the positive attitude of both sides would seem to point to early success. The West Germans broke relations ten years ago when Yugoslavia recognized East Germany. Chancellor Kiesinger has made clear, however, that his government will still try to deter nations other than those of Eastern Europe from recognizing East Germany.
